THE EXCITING NEW DAYLILIES

The Daylily colors are becoming more exciting each year. It is America's fastest growing hobby flower, due to the astounding new colors, forms and their toleration of all sorts of soils. Daylilies are tough, they can stand heat and drought.

CULTURE

Daylilies should be planted with crown of plant one inch beneath soil surface. The crown of plants is where the roots join the foliage. Plant in a sunny location for maximum bloom. The soil should be well drained and supplied with plenty of organic matter. Add a good sized handful of bonemeal or a light sprinkling of your favorite fertilizer, well mixed with the top six inches of soil. If you want large blooms with good color, water plants when they are getting their bloom scapes.

PREMIUMS: On all orders of \$4.00 and over, we add an extra gift plant of fine value. Another premium we are noted for is our large, husky plants. This year we are adding another premium. On orders shipped over 150 miles, we are shipping plants SPECIAL HANDLING, no extra charge to you.

TERMS: Cash with order. All orders of \$4.00 and more shipped postpaid. Below that, add 40c for shipping and packing.

INVITATION: You are invited to join the HEMEROCALLIS SOCIETY. Send \$3.50 dues to the AMERICAN HEMEROCALLIS SOCIETY, Secretary, Daisy L. Ferrick, 416 Arter Ave., Topeka, Kansas.

GUARANTEE: All plants guaranteed to be true to name, free from disease and insect pests. All plants are State inspected.

Iris

GREEN FASHION (P. J. Fass) (Tobacco Road X Copper Rose) X Desert Song.

A medium Olive-green self with no other markings or veining. Flowers are broad petaled with very heavy substance. This Iris is primarily a breeder's item for breeding better greens and toward true blue. It has always been my firm conviction that in order to breed for the true blue Iris, we must first breed for the green in order to do away with the red cells in the blues. 34 in. Midseason. **\$8.00**
